

Jeff Sun

Senior Regulatory Consultant – Brandwood Biomedical China

Jeff Sun provides expert consultancy services relating to regulatory compliance in China including strategy, submissions, quality systems, vendor management and postmarket compliance.

Business Profile

Over twenty years of medical device industry experience in China.

Experience in Quality Assurance, Regulatory Affairs and International Standards development.

Broad prior experience including Bausch and Lomb, C.R.Bard and Welch Allyn as well as establishing and running privately owned regulatory consulting company BE Consulting.

Qualifications

B.S. (Beijing Medical University)

Jeff joined Brandwood Biomedical in early 2017, bringing with him extensive experience in the rapidly developing regulatory environment in China.

Jeff's prior experience includes senior roles in quality & regulatory affairs. Over two decades working in China, he has prepared hundreds of successful regulatory submissions in a wide area of device technologies including active and passive surgical devices, medical imaging equipment, medical disposables, ophthalmological instruments, software and diagnostic and monitoring devices.

Jeff has an extensive network in China and has conducted many consultations with Chinese type testing centres and with the CFDA's Centre for Medical Device Evaluation. He has participated in the development of Chinese and international standards while working alongside technical experts from government and industry in China and abroad.

Jeff provides strategic advice on entering the Chinese market and represents clients of Brandwood Biomedical throughout interactions with the CFDA and other government agencies.
